Phase 2: Organization & Setup Configuration

1. Problem Statement:

The "Promptly" project aims to address the issue of capturing fleeting thoughts and micro-tasks without the friction of a complex to-do list app. The solution provides a quick, voice-activated tool for setting reminders that are too small to be added to a traditional to-do list but are too important to forget. The app's simplicity is its key differentiator.

2. Salesforce Edition & Environment Setup

• Edition: Salesforce Developer Edition

• Instance: SWE106.

 Purpose: The purpose of this environment is to serve as a dedicated space for building and testing the Promptly reminder application.

3. Company Profile Configuration

• Organization Name: Aditya University

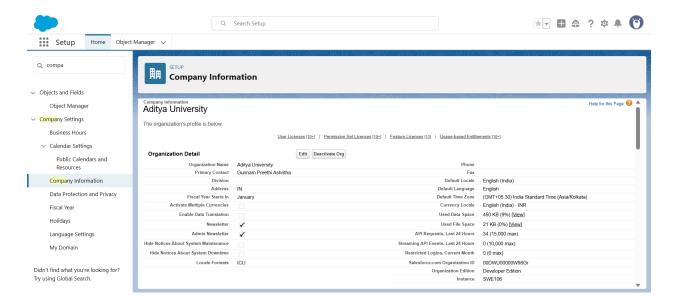

• Industry: Non-profit organization

• **Default Locale**: English (India)

• Default Language: English

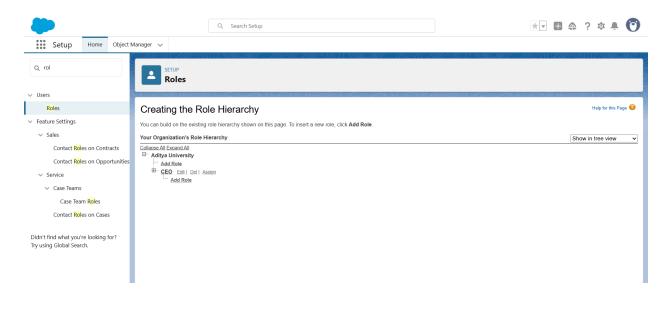

Default Time Zone: (GMT+05:30) India Standard Time (Asia/Kolkata)

Currency: English (India) - INR

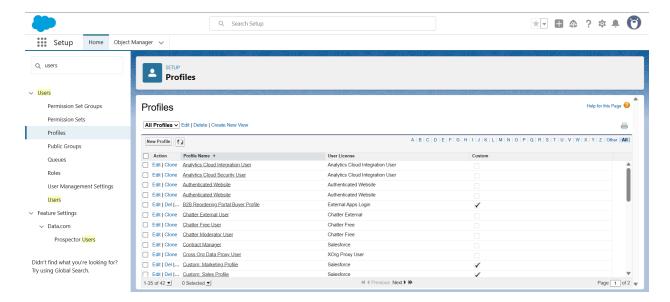

4. Role Hierarchy Setup

 Role Structure: Role hierarchy is not applicable to this project as it's a front-end, single-user application.

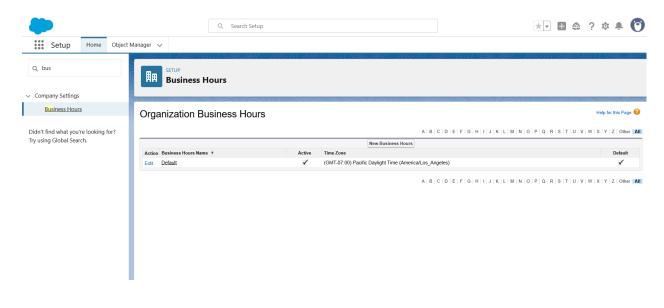

5. User Profiles

• User profiles are not applicable as there is no user management or authentication.

6. Business Hours & Holidays Configuration

 Business hours and holidays are not configured as this is a front-end application with no server-side processes.

7. User License Management

• User license management is not applicable. The project is a single-file web application and does not require any licenses.

8. Security Foundation

- Organization-Wide Defaults (OWD): Not applicable.
- Role Hierarchy & Sharing Rules: Not applicable, as no data is stored on a server.
- **Security Review**: The application is highly secure because it handles no sensitive user data. No information is ever sent to a server.

9. Development Setup

- Current Environment: The project is built using a frontend web application.
- **Deployment Method**: The promptly.html, promptly.js files will be hosted on a public GitHub repository. GitHub Pages will be used for deployment.
